

Haanim Pietersen

Aspiring Web Developer

My experience in school and youth uncapped has enabled me to adapt to a developing environment. It has given me confidence to work and interact with people on a daily basis. I view myself as an exceptionally well organised individual and possesses good communication skills in both English and Afrikaans. I am a definite team player, who learns fast and leads by example. My ideal environment is a growth orientated individual and motivated one, which prides itself in learning and excellent service
